I'm A Little Teapot

Based on the Traditional Song. New Lyrics by Steven Zelin and Judy Klass

I'm a little teapot, short and stout
Here is my handle, here is my spout
When I get all steamed up, hear me shout
Tip me over and pour me out!

I'm a corner traffic light, always on the scene
Close to the white lines that you walk between
When I change my signal, here's what I mean:
Stop when I'm red; walk on green!

I'm a little cell phone, hear me beep
Turn me off when you want to go to sleep
People will leave messages, which I'll keep
Just don't drop me, I can't leap.

I'm a yellow schoolbus on your street
Climb on board if you want to rest your feet
When I am in motion, stay in your seat
But look around for shy kids you can meet

I'm a little teapot, short and stout
Here is my handle, here is my spout
When I get all steamed up, hear me shout
Tip me over and pour me out!

Asian Pears Words and Music by Steven Zelin

I like sharing apples, all the greens and reds
I like sharing mangoes, even though they have threads
But there's one fruit I really love to share
My favorite fruit is Asian Pears.

I love rosy peaches, sweetest in the summertime
I love great big purple grapes, I eat them off the vine
But there's one fruit and nothing can compare
My favorite fruit is Asian Pears.

Rough and firm on the outside
Soft and juicy on the inside
Long ago they were only for kings
But now they're for us, they're my favorite things

I like yummy strawberries I eat them off the stem
And I like big fat blueberries I can eat handfuls of them.
But there's only one fruit that makes me feel like I'm walking on air
My favorite fruit, My favorite fruit
My favorite fruit is Asian Pears.

Magical Boxes Words and Music by Steven Zelin

I'm going to sing a song about Magical Boxes. See if you can guess what each magical box is that I sing about, okay?

There's a magical box that has a big screen
I watch cartoons and channel thirteen
It always glows with my favorite shows
It's my magical box with the screen

Who knows what is it? [Kids answer] Great, Let's try the next one!

There's a magical box by my driveway
It brings me letters from far away
With every sunrise there's a new surprise
In my magical box by my driveway

Who knows what is it? [Kids answer] Great, Let's try the next one!

There's a magical box that sits on my desk
It helps me get on the internet
It's the newest sensation to find information
It's my magical box on my desk

Who knows what is it? [Kids answer] Great, Let's try the next one!

There's a magical box I hold in my hand
It takes pictures of me when I play in the sand
It helps me to focus, feels like hocus-pocus.
It's my magical box in my hand.

Who knows what is it? [Kids answer] Great, Let's try the last one!

There's a magical box for me at the bank
It's faster and stronger than any tank
Put my card in the slot and it's money I got
It's my magical box at the bank.

How Many? Words and Music by Steven Zelin ©2005

How many carrots do you see? One, Two or Three?
How many doggies are sitting by the door? One, Two, Three, or Four?
How many bees are humming in the beehive? Two, Three, Four or Five?
How many cookies did we make from the mix? Three, Four,
Five, or Six?

If there are six dolphins and one takes a dive, how many are left? (Five)
If you have five brownies and you drop one on the floor, how
many are left? (Four)
If there are four penguins and one jumps in the sea, how many
are left? (Three)
If you see three birds and one flies to Peru, how many are left? (Two)
How many carrots do you see? (One.. for me.)

I Love to Count Words and music by Steven Zelin

There's one, 'cause there's only one me in the world.
There are two types of people, there's a boy and a girl.
There are three parts of a day--morning, noon and night.
There are four seasons and I like to dress right!

There are five senses such as hearing and taste.

There are six infielders and I play first base!
There are seven wonders in the Ancient World.
There are eight arms when an octopus gets uncurled.

I love to count
I love to count
We love to count
Don't you love to count

One, Two, Three, Four,
Five, Six, Seven, Eight,
Nine, Ten, Eleven, Twelve,
Thirteen, Fourteen, Fifteen, Sixteen.

There were nine planets in the solar system.
There are ten bowling pins and I'm not going to miss 'em.
There are eleven birds flying up in the flock.
There are twelve numbers on my kitchen clock.

I love to count
I love to count
We love to count
Don't you love to count

One, Two, Three, Four,
Five, Six, Seven, Eight,
Nine, Ten, Eleven, Twelve,
Thirteen, Fourteen, Fifteen, Sixteen.

There are thirteen eggs in a bakers dozen.
There are fourteen for breakfast and don't forget my cousin!
There are fifteen minutes in a quarter hour.
There are sixteen ounces in a pound of flour.

I love to count
I love to count
We love to count

Don't you love to count
I love to count!

TWICE AS MANY Words and Music by Judy Klass and Steven Zelin

There's a strange magician, who multiplies by two
He loves to double, and cause a little trouble
Let me tell you what he likes to do

He saw a wild zebra roaming his neighborhood
He used some magic, the result was tragic.
There were two zebras where only one zebra stood

TWICE AS MANY, IT'S A ZOO
IT'S LOTS OF FUN TO MULTIPLY BY TWO
TWICE AS MANY, LET'S EXPLORE!
TWO TIMES MORE THAN THERE WERE BEFORE

He spotted two sea otters swimming in the sea
He wanted to help, but not just with kelp
Then four otters swam where just two used to be

He saw three sparrows nesting, picking their twigs and sticks
He said "Kazam" and "Poof;" I'm telling you the truth
And when he left that nest, there were six

CHORUS

He found four luscious apples, sitting on his plate
He cast a spell, then he ate well;
that's because the apples numbered eight

He saw five tadpoles swimming, and wanted to help out again
He waved his wand, right above the pond;
by the time he walked away, the tadpoles numbered ten

TWICE AS MANY, IT'S A ZOO
IT'S LOTS OF FUN TO MULTIPLY BY TWO
TWICE AS MANY, LET'S EXPLORE!
TWO TIMES MORE THAN THERE WERE BEFORE

He saw six darting minnows swimming by themselves
Now in that stream, there's a dozen on their team,
That's because the minnows swim in twelves

And there were seven squirrely squirrels: the fuzziest you have seen
He drew a ring and did his thing,
And instead of seven there were fourteen

CHORUS

Be careful if you meet him, and check the mood he's in
The multiplying magician
may introduce you to your twin

Oh! Times Tables

Based on the traditional song "Oh, Susanna"
New words by Steven Zelin

Oh, and zero times zero is zero
And a zero times one is zero
And a zero times two is zero again
Oh zero times everything is zero

Chorus

Magical Boxes Steven Zelin

Oh! Times tables, I love to multiply
It's easy and fun and when I'm done
I'll learn how to divide.

One times one is always one
And one times two is two
And one times three will give you three
And one times you is you

Oh and two times one is always two
And two times two is four
And two times three will give you six
And two times four is more
Kids: (Hey Steve, two times four is eight)
Steven: (Hey, you're right! Two times four is eight!)

Chorus

Oh and three times two is always six
And nine is three times three
And three times four is always twelve
times five is bigger than me.

Oh and four times four is sixteen
And four times five is twenty
And four times six is twenty-four
And four times seven is plenty
Kids: (Four times seven is 28!)
Steven: (You're right, four times seven is 28, but that's plenty, right?)
Kids: That's' plenty!

Chorus

Oh and five times five is twenty-five
And thirty is five times six
And five times seven is thirty-five
times eight is forty drumsticks

Oh and six times six is thirty-six
Six sevens is forty-two
And six times eight is forty-eight
And six is three times you plus you.

Chorus

Seven times seven is forty-nine
Fifty-six is seven eights
Seven times nine is sixty-three
And seven times ten is great.

Eight times Eight is sixty-four
Eight nines are seventy-two
And eight times ten is eighty
Eight is four times two is true.

Chorus

Nine times nine is eighty-one
And nine times ten is ninety
Nine times eleven is ninety-nine
And that number's not tiny

Oh! Times tables, I love to multiply
It's easy and fun and when I'm done
I'll learn how to divide.
It's easy and fun and when I'm done
I'll learn how to divide.

To Market To Market

Based on the Traditional rhyme New words by Steven Zelin

To market to market to buy orange juice.
Home again home again, let's get some produce.

To market to market to buy asian pears.
Home again home again, we like to share.

To market to market to buy whole wheat bread.
Home again home again, good for my head.

To market to market to buy some grape jelly.
Home again home again, good for my belly.

To market to market to buy peanut butter.
Home again home again, makes my heart flutter.

To market to market to buy us a fish.
Home again home again, make a new dish.

To market to market to buy cookie mix.
Home again home again, bake thirty-six!

Based on the Traditional song "She'll Be Comin' Around the Mountain (when she comes)" New lyrics by Steven Zelin

She'll be comin' through the door way when she comes
She'll be comin' through the door way when she comes
She'll be comin' through the door way
She'll be comin' through the door way
She'll be comin' through the door way when she comes

She'll be glad I used the potty when she comes
She'll be happy I've been sleeping when she comes
She'll be making me some dinner when she comes
She'll be giving lots of kisses when she comes
She'll be singing to me softly when she comes
We'll be watching Spongbob Squarepants

Row, Row, Row Your Boat (Traditional song)

Row, row, row your boat
Gently down the stream.
Merrily, merrily, merrily, merrily,
Life is but a dream.

Twinkle, Twinkle

Based on the Traditional song New lyrics by Judy Klass and Steven Zelin

Twinkle, twinkle, little star
How I wonder what you are
Up above the world so high
Like a diamond in the sky
Twinkle, twinkle, little star
How I wonder what you are

From my window late at night
I see the moon so big and bright
Here on Earth we have one moon
I'll take a rocket ship there soon
From my window late at night
I see the moon so big and bright

Through a telescope I can see
All the way to Mercury
Venus has clouds and Mars is red
I dream of planets when I'm in bed
Through a telescope I can see
All the way to Mercury

There are times I wish I were
On a moon near Jupiter
If my spaceship had good wings
I would glide on Saturn's rings
Like a real space traveler
From a moon near Jupiter

Twinkle, twinkle, little star
How I wonder what you are
Up above the world so high
Like a diamond in the sky
Twinkle, twinkle, little star
How I wonder what you are

Rockabye Baby

Based on the traditional song "Rockabye Baby"
New lyrics by Steven Zelin and Judy Klass

Rockabye baby on the treetop
When the wind blows the cradle will rock
When the bough breaks, the cradle will fall
And down will come baby, cradle and all

Soon baby's cradle floats on the breeze
And it glides higher over the trees
Up to the clouds so fluffy and soft
On gentle winds that keep it aloft

Up on a cloud the cradle sets down
Angels hum lullabies all around
They sprinkle stardust into sweet dreams
Of bunnies and meadows and chocolate ice cream.

Rockabye baby, tucked in to sleep
Blanket so warm and pillow so deep
Love watches over you in this song
There in your cradle safe all night long
